

I. Background

- The Board uses the TLCI as an objective measurement for identifying rate increases for taxis and limousines. TLCI uses Consumer Price Index (CPI) data for BC that is obtained from Statistics Canada. The Board reviews CPI data every year to determine whether a rate change is warranted.
- Based on cumulative increases in CPI (BC), as set out in the Board Rule, “Taxi & Limousine Cost Index 2016,” of April 6, 2016, the Board approves requests from licensees for a TLCI rate increase of up to 2.9%.
- Taxi licensees in the Capital Regional District charge the same metered rates, more than 51% of taxi licensees in the CRD have requested a TLCI rate increase of 2.9%, and the Board is applying the 2.9% increase to all taxi licensees in the CRD.
