

Inter-city bus

Inter-city bus operators must have a passenger transportation licence with special authorization. Inter-city bus services operate between cities on a schedule, over regular routes and charge per person fares.

Start an inter-city bus service

Passenger transportation operators applying for a new licence must show the Board that they are:

- a [fit and proper](#) person to provide the proposed service; and
- [capable](#) of providing the service

Operators must demonstrate that:

- there is a [public need](#) for that proposed service; and
- that the application, if granted, promotes [sound economic conditions](#) in the passenger transportation industry in British Columbia.

Make sure you understand the [application process](#). It explains how the Board uses the evidence you provide in your application to make a decision.
